DETAILED ACTION

Drawings

1. Figures 1 and 4(a) should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification

2. The disclosure is objected to because of the following informalities:

On page 3, the sentence at lines 15-16 ("Although...shapes") is not entirely clear. It appears that "I" should be --is--. However, "shown" appears twice in the sentence. Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-4 and 7-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Griffie et al (3811127).

Regarding Claims 1-4 and 7-9, Griffie et al teach an antenna that is non-planar having at least a surface 50 that is three dimensional and disposed above a

ground plane 38, and used in a mobile station, i.e., "in the fuselage of an aircraft" (col. 3, lines 20-23), all arranged as claimed.

5. Claims 1-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Norman (5437091).

Regarding Claims 1-11, Norman teaches a conformal, mobile (i.e., in an aircraft) antenna 10 that is not planar, mounted upon a ground plane 36 and bonded with various dielectric layers 24, 20, 30, etc., where the radiator surface extends in three dimensions, and the dielectric increases the average antenna height, all arranged as claimed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael C. Wimer whose telephone number is (703) 305-3555. The examiner can normally be reached on M-F.
